# The Basics

---

- Think through the type of photos you want to capture beforehand and make a plan.
- Candid photos of the experience are preferred over posed group photos. Take photos of people so close that they feel they are a part of the moment.
- When possible, capture faces and expressions clearly.
- Try to find good lighting. Avoid harsh sunlight, dark shadows and dimly lit situations.
- Keep it simple. Avoid overloading the image with lots of elements. Favor clean, uncluttered compositions.
- Capture photos that reflect the diversity of the Lenoir-Rhyne campus and community.
- Remember that various photo sizes, angles and orientations (horizontal and vertical) are necessary for placement in traditional media, online pages, social media sites, web banners and ads, etc. Try to capture a few different layout.
