*\* On occasion, technical and/or program requirements may also meet specific core curriculum requirements. Please confer with your program advisor to determine which courses, if any, may be counted accordingly.*

*Please note: The courses above are intended to represent the most current technical and major requirements for this program. The University Catalog, however, is the ultimate and final authority for all degree-related requirements. Current students should follow the curriculum requirements stated in the University Catalog under the academic year they matriculated to Lenoir-Rhyne, which may be different than the list above. Additionally, all undergraduate degree programs at LR require a minimum of 128 earned credit hours. If, in combination, the core, technical, and program requirements do not culminate in at least 128 hours, additional credits must be earned to achieve 128 hours. These credits may be general electives, or a student may complete a minor or additional major. Please refer to the University Catalog for a complete listing of all graduation requirements and/or confer with your Academic Advisor.*
