## **Cornerstone Student Support and Wellness Center**

### **Informed Consent**

#### **Disability, Health, and Counseling Services are Working Together with You**

The Cornerstone Student Support and Wellness Center (CSSWC) at Lenoir-Rhyne University offers current students an array of services. Students may meet with the school nurse practitioner, and utilize disability services, as needed. In addition, all current LR students may receive one-on-one individual counseling.

The service providers in the CSSWC operate as a clinical team. Given the close relationship between the psychological and the biological (learning disabilities, medication evaluation, etc.), we often work collaboratively. As a client of the CSSWC, you are entitled to receive information about the methods and duration of treatment, techniques used, fee structure, and associated risks, if known. Treatment is an active and cooperative effort involving both you and your care providers. If you should have any concerns about your progress or the results of your treatment, we encourage you to discuss them with us at any time. You can terminate treatment at any time.

#### **Confidentiality**

Counseling and health services often involve the disclosure of personal information. State laws and professional ethical codes dictate that the information discussed during these sessions will be strictly confidential, if you are 18 years of age or older. Your health and mental health records are not kept as part of your academic or administrative records. Furthermore, we cannot and will not disclose to anyone what we discuss in session, or that you are even receiving services, without your written permission.

#### **Exceptions: The following are legal exceptions to your right to confidentiality.**

**Harm to self:** If there is evidence that an individual poses clear and imminent danger of harming themselves, the provider may have to notify the hospital, school officials, law enforcement, and/or family members who may be able to assist with the matter.

**Harm to others:** If there is reason to believe that you will harm another person, the provider must attempt to inform the intended victim, school officials, as well as law enforcement.

**Child/ Elder Abuse or neglect:** Providers who know or reasonably suspect that a child under the age of 18 is being abused and/or neglected are legally obligated to report this information to the appropriate state agencies. This also applies in cases of elder abuse and/or neglect.

**Court order:** If your records are ordered by the court of law, the provider will do what they can to protect confidentiality-within the limits of abiding by the law.

**Staff consultation and supervision of trainees:** To protect your privacy within the center, we follow a “need to know” guideline. This means that providers may review your records if they are treating you for concerns that may be related to care you have received at the CSSWC. Additionally, providers may work collaboratively to provide you with the best treatment possible.

Some services are offered by staff that are supervised by licensed clinicians. In order to ensure the highest standards of care, supervised clinicians meet with their supervisors weekly and review the progress of their work with you. The limits of confidentiality delineated in this Consumer Rights statement apply to this supervision. Supervisors have responsibility for the work of their supervised therapists and are available for consultation upon your request. If you have any questions about this supervisory relationship, we encourage you to talk with your care provider. Additionally, at times, your counselors may audio or videotape the session to consult with other professional staff or receive supervision from a clinical supervisor. Your participation in audio/videotaping is strictly confidential. Should you choose to participate your written permission would be required.

*I authorize my health care provider to discuss my treatment with other treating professionals of The Cornerstone Student Support and Wellness Center staff, Lenoir-Rhyne University, when indicated. I have had the opportunity to discuss this informed consent statement with my provider and I understand its meaning and consent to receiving treatment. I understand that should it be determined that discussions with individuals not directly involved in my treatment would be beneficial to me (i.e. parents, friends) written consent will be requested, unless such disclosures are permitted by law without my written consent.*
